

Debjyoti Mohapatra

Senior Software Engineer

Bhubaneswar, Odisha, India || [+91-7568802836](tel:+91-7568802836) || mohapatra.dev02@gmail.com

PROFESSIONAL SUMMARY Accomplished Full Stack Developer with over 5 years of experience specializing in JavaScript, Vue.js, and TypeScript, with additional expertise in Node.js and modern web technologies. Demonstrated proficiency in designing intuitive user interfaces, developing scalable backend architectures, and delivering innovative solutions across diverse domains, including fintech, AI, and no-code platforms. Recognized for a results-driven approach and a commitment to excellence in software development.

EXPERIENCE **SOFTWARE DEVELOPMENT ENGINEER - 2**
Applore Technologies. || October 2024 – Present

Led a development team as Vue Consultant for Reach Mobile (US telecom startup), spearheading the development of their e-commerce store using a Vue/React-based front-end and integrating various CMS platforms. Collaborated closely with designers to ensure a cohesive user experience.

SENIOR SOFTWARE ENGINEER
Gate AI Pvt Ltd || Dec 2023 – Sept 2024

Focused on developing AI-driven solutions, I contributed to a multi-tenant platform with the following key features:

- Spearheaded full-stack development of a multi-tenant, AI-powered chat application, integrating diverse LLMs and prioritizing data security with robust data loss prevention mechanisms.
- Engineered a Node.js backend to seamlessly connect the application with various LLM-powered AI engines, generating APIs for both portal and AI interaction.
- Developed a centralized authentication module for secure and streamlined access across all application components, enhancing security and user experience.
- Built an internal administrative portal to centralize customer support, manage multi-tenant accounts, oversee master data, provision tenants, and optimize infrastructure performance.

SENIOR SOFTWARE ENGINEER
Geekyants || Sept 2021 – Dec

I served as a proficient full stack developer, acquiring valuable expertise across a range of projects, predominantly within the Fintech sector.

- Create and manage responsive, visually appealing informational websites while optimizing performance and user experience. Integrate analytics and SEO for enhanced functionality.
 - Design, develop, and maintain a versatile Content Management System for use
-

across multiple platforms.

- Engineer and deploy a Backend API application for content management, including PDF generation, email systems, and other functionalities.
- Devise and construct an advisory and admin console for seamless operations.
- Innovate and develop a sophisticated portfolio-centric investment website.

FRONTEND DEVELOPER

Ideanz IT solution (now KISAI) || May 2021- Sept 2021

As a dedicated Frontend Developer at KISAI, I contributed to pioneering advancements in no-code platform technology.

- Played a pivotal role in the development of an innovative no-code platform, revolutionizing web and mobile app solutions.
- Spearheaded the creation of a dynamic Component Library, significantly optimizing development processes.
- Designed an intuitive Layout Builder, enabling seamless and efficient web page creation.
- Pioneered the development of an advanced Schema Builder module, facilitating the design of complex applications with ease.

SOFTWARE ENGINEER

Kalsoft Solutions Pvt Ltd || Nov 2019 – May 2021

I served as a software developer, gaining invaluable expertise across a spectrum of projects. below are major projects i was involved:

- **Salesdesk** - A Sales CRM "one-stop solution for all sales needs. My responsibilities spanned design, development, and comprehensive module development, highlighting my commitment to holistic solutions.
- **Digital DTV** - Market Analysis and Digital Idea transformation. I held the role of a Frontend Developer, responsible for designing UI components and developing client-side functionality to enhance the user experience of the application.
