Education

B.Tech in Computer Science

Silicon Institute of Technology 2015 – 2019

Professional Experience

Software Development Engineer - 2 | Applore Technologies

Oct 2024 – Present

- Led frontend development for Reach Mobile (US telecom startup) to build an innovative e-commerce store using a Vue/React stack.
- Integrated CMS platforms (Contentful, Strapi) to ensure a seamless UI/UX.
- Collaborated with cross-functional teams to deliver high-performance, scalable solutions.

Senior Software Engineer | Gate AI Pvt Ltd

Dec 2023 – Sept 2024

- Spearheaded an AI-powered multi-tenant chat application using Vue 3 and Nuxt.js with robust data security and LLM API integrations.
- Designed breakthrough solutions such as a dynamic Component Library and Layout Builder, reducing development time by 30%.
- Built a centralized authentication module (JWT/OAuth) for secure access across all components.

Senior Software Engineer | Geekyants

Sept 2021 – Nov 2023

- Developed a portfolio-centric investment platform using Nuxt 3 and Firebase, enabling real-time tracking and notifications.
- Engineered CMS solutions with role-based workflows and dynamic content previews using Vue 3 and Quasar.
- Created data visualization dashboards with Chart.js to deliver actionable insights.

Frontend Developer | KISAI (Ideanz IT Solutions)

May 2021 – Sept 2021

- Pioneered a no-code platform featuring drag-and-drop Schema and Layout Builders using Vue.js and Tailwind CSS.
- Developed a reusable Component Library with Storybook, ensuring consistent UI and reducing development cycles.

Software Engineer | Kalsoft Solutions

Nov 2019 – May 2021

- Developed and maintained multiple web applications using Vue.js and Node.js.
- Implemented responsive designs and optimized application performance.
- Collaborated with the design team to create intuitive user interfaces.
